- 1.5.** The vehicle is not in normal use if:
 - 1.5.1.** the vehicle is involved in rental or leasing (other than an operating or finance lease where the policyholder is also the lessee);
 - 1.5.2.** the vehicle is being used as a training vehicle (unless the driving practice takes place under the supervision of a family member holding a driving instructor's certificate and no fee is charged for this);

- 1.6.** In the case of lorries and trailers, tipper lorries, refrigerator lorries, forestry lorries, tank lorries, forklift trucks, cranes or vehicles adapted for the transport of dangerous goods are not considered to be vehicles in normal use.
- 1.7.** In the case of buses and coaches, a vehicle intended for municipal, urban, regional, international or charter services is not considered to be a vehicle in normal use.

2. SUM INSURED AND INSURABLE VALUE

- 2.1.** The sum insured is the maximum amount that BTA will pay out in the case of an insured event and is stated in the policy. The amount of insurance is not reduced by the amount of the indemnity paid out.
- 2.2.** The sum insured for cars and vans is the insured value of the vehicle immediately before the insured event, unless otherwise agreed when the insurance contract is entered into.
- 2.3.** The sum insured for trucks, trailers and buses is the numerical value of the insurance shown in the policy.

 - 7.1.26.** damage caused by of the theft, robbery or unauthorised use of the vehicle and/or its insured parts if at least one of the following circumstances exists:
 - 7.1.26.1.** the vehicle key was left in the vehicle or the vehicle doors were not locked and/or anti-theft devices were not switched on or they were missing at the time of the theft or robbery;
 - 7.1.26.2.** the theft or robbery was not properly reported to the police;
 - 7.1.26.3.** during the period of insurance, the key to the vehicle was stolen or lost, but the policyholder did not notify BTA immediately and did not take the necessary measures

to ensure the security of the vehicle, i.e. the vehicle was not moved to a safe place, the locks and anti-theft devices were not replaced;

7.1.26.4. the vehicle's anti-theft devices were damaged but not repaired or replaced;

7.1.26.5. the person who stole or robbed the vehicle, or who participated in the offence, was the policyholder, the beneficiary or a person working for them.

- 8.1.1.** explain the rights and obligations under the insurance contract to the persons in whose possession or use the vehicle is given;
 - 8.1.2.** follow the requirements laid down in legislation, including the Traffic Act, when using the vehicle;
 - 8.1.3.** comply with the terms and conditions of the AETR (European Agreement Concerning the Work of Crews of Vehicles Engaged in International Road Transport) and the working time and rest period regulations governing the driver's activities, if the policyholder is a professional driver;
 - 8.1.4.** close and lock the vehicle doors, windows, hatches and, if the vehicle is unlocked, fit/lock the roof and then deploy all anti-theft devices when leaving the vehicle;
 - 8.1.5.** keep the keys and registration documents of the vehicle in such a way that third parties cannot remove them without breaking the barrier or using force;
 - 8.1.6.** in the case of the theft, robbery or loss of the vehicle keys, immediately change all locks and re-code or replace any anti-theft devices. Until appropriate measures are taken, the vehicle must be kept in a place where it is supervised or locked;
 - 8.1.7.** allow the BTA representative to inspect the technical condition of the vehicle and its documents at the first request;
 - 8.1.8.** notify BTA of any change in the engine power of the vehicle or any modification of the vehicle which substantially changes the composition of the vehicle compared to the time of entry into the insurance contract;
 - 8.1.9.** notify BTA immediately of an increase in the probability of the insured risk, unless the increase in the probability of the insured risk was caused by a generally known fact that does not affect the insured risk of that policyholder alone. Circumstances that increase the insurance risk include, but are not limited to, transfer of the vehicle, loss of keys or registration documents, deletion of the vehicle from the vehicle register, change of use of the vehicle during the period of insurance (e.g., the vehicle becomes a taxi, a rental vehicle, etc.), breakdown of the vehicle's locking systems, breakdown of the vehicle's anti-theft devices;
 - 8.1.10.** ensure that the possibility of insurance risk is not increased by persons regarded as equivalent to the policyholder.

 - 8.2.4.** in the case of theft, misappropriation or robbery of the vehicle, immediately provide BTA with all keys and registration documents of the vehicle. Upon the transfer, a transfer record is prepared in two copies, which will be signed by both parties. Exceptionally, if these items have been taken into possession by law enforcement officials in the context of a criminal case, the policyholder must prove this to the BTA;
 - 8.2.5.** notify BTA without delay of the occurrence of an insured event and provide BTA with the information and documents in its possession concerning the causes of the damage and the amount of the damage;
 - 8.2.6.** prove that an insured event occurred;
 - 8.2.7.** submit the damaged vehicle in the state it is in after the insured event to BTA for inspection as soon as possible;
 - 8.2.8.** not to make any modifications to the insured vehicle without the consent of BTA;
 - 8.2.9.** deliver the remains of the vehicle to BTA in the condition they are in after the insured event, if the vehicle is declared destroyed or if it is not economically feasible to restore the vehicle and the parties have not agreed otherwise. If the insured event takes place outside Estonia, the remains of the vehicle must be brought to Estonia to be handed over, and the costs incurred by BTA to move the vehicle will be deducted from the insurance indemnity;
 - 8.2.10.** submit to the BTA, within 48 hours of the accident, an extract from the tachograph record sheet if the vehicle was fitted with a tachograph;
 - 8.2.11.** make every effort to prevent an insured event and to minimise the potential loss, to avoid

increasing the possibility of the insured risk and not to allow persons who are equivalent to the policyholder to do so.

- 8.3.** After the insurance indemnity has been paid out, the policyholder is obliged to:
- 8.3.1.** immediately notify BTA in writing or in a format that can be reproduced in writing if the stolen or robbed vehicle is found. 9. BTA'S OBLIGATIONS AND RIGHTS

- 9.1.** BTA is obliged to:
- 9.1.1.** arrange an inspection of the damage to the vehicle as soon as possible after being notified of the damage;
 - 9.1.2.** make a decision as soon as possible after receiving the circumstances of the loss or damage, the amount of the loss or damage and the information and documents (including the repair estimate) necessary for payment of the insurance indemnity, whether or not to recognise the loss or damage as an insured event;
 - 9.1.3.** if the event is recognised as an insured event, make a decision on the amount of the loss or damage within 10 working days of receiving the information and documents (including repair estimates) necessary to determine the circumstances of the loss or damage and its extent and to pay the insurance indemnity;
 - 9.1.4.** in the case of theft/robbery, make a decision on the amount of the loss or damage within one month of receipt of the information and documents (including repair estimates) necessary to determine the circumstances of the loss or damage and its extent and to pay the insurance indemnity;
 - 9.1.5.** give reasons for its decisions in such a way that the recipient of the information understands the reasons for the decision and the evidence and circumstances on which it is based, and also understands the BTA's interpretation;
 - 9.1.6.** immediately inform the policyholder of the documents not submitted;
 - 9.1.7.** BTA has the right to recover from the policyholder the difference in premiums due to an increase in the probability of the insurance risk (e.g., change in the area of use, increase in engine capacity, vehicle conversion, etc.) retroactively from the date of the increase in the probability of the insurance risk. If the policyholder does not agree to an increase in the premium, BTA has the right to cancel the insurance contract in accordance with the procedure laid down by law.

10. RELEASE OF BTA FROM OBLIGATION TO PERFORM INSURANCE CONTRACT

- 10.1.** BTA will be released from its obligation to perform the insurance contract in whole or in part if:
- 10.1.1.** the policyholder intentionally or through gross negligence breached at least one of the obligations laid down in the insurance contract and the breach of the obligation had an effect on the occurrence of the loss or damage, the amount of the loss or damage or the determination of the extent of the obligation to comply with the BTA;
 - 10.1.2.** the driver was under the influence of alcohol and/or drugs and/or psychotropic substances at the time the damage occurred or refused to have their intoxication ascertained immediately after the accident. Similarly, the damage will not be indemnified if the driver was under the influence of alcohol, drugs or psychotropic substances after the damage occurred but before the arrival of the police or before the proposal to determine intoxication was made;
 - 10.1.3.** the driver left the scene of the road accident, thereby breaching effective legislation;
 - 10.1.4.** the policyholder has breached the obligation to notify of an increase in the probability of an insured risk or the prohibition on increasing the probability of an insured risk;
 - 10.1.5.** the driver exceeded the speed limit on the section of the road concerned and that speeding was causally linked to the damage or the extent of the damage;
 - 10.1.6.** the driver broke the rules for crossing a railway crossing;
 - 10.1.7.** the driver did not have the right to drive the relevant category of vehicle at the time of the road accident;
 - 10.1.8.** the policyholder committed or contributed to the commission of a crime with the vehicle;
 - 10.1.9.** the driver was in breach of the terms of the AETR (European Agreement Concerning the Work of Crews of Vehicles Engaged in International Road Transport) and of the legislation on working time and rest periods governing the driver's activities in the 48 hours before the accident;
 - 10.1.10.** the policyholder, following the theft or robbery of the vehicle, did not provide BTA with the vehicle registration certificate and/or any vehicle keys provided by the manufacturer with the vehicle, unless they were handed over to law enforcement authorities. In this case, BTA has the right to

reduce the insurance indemnity by 50%;

10.1.11. compensation for damage or costs is provided for under motor insurance, including compulsory insurance, or the obligation to compensate for damage or costs is borne by a third party.

11. GENERAL PRINCIPLES

- 11.1.** The ways in which the damage caused by a comprehensive insurance event are indemnified are compensation for the recovery expenses of the damaged vehicle or a monetary indemnity from which the deductible and the insurance premiums that have fallen due are subtracted.
- 11.2.** If the restoration of the vehicle is economically and technically feasible and BTA accepts the method and place of repair chosen by the policyholder, BTA will issue a letter of guarantee to the policyholder. The issue of a letter of guarantee does not imply that the work has been ordered by BTA or that BTA assumes responsibility for the quality of the work performed.
- 11.3.** During the period of validity of the general warranty of the vehicle, the cost of the vehicle's repair at the manufacturer's authorised representative will be indemnified. After the expiry of the general guarantee, the cost of restoring the vehicle at the manufacturer's authorised representative will be indemnified only if there is additional cover, as indicated in the policy.
- 11.3.1.** The manufacturer's paint warranty and the bodywork warranty after the expiry of the general warranty period, and any additional warranty given by an automobile sales company or an agency, if its content is not identical to the general warranty, are not considered as general warranty.
- 11.4.** In the event that BTA and the policyholder fail to reach an agreement on the manner or place of restoration of the vehicle, BTA will pay a financial compensation corresponding to the justified and reasonable costs necessary for the restoration of the vehicle, based on the cost of repair accepted by BTA.
- 11.5.** When restoring the vehicle, BTA has the right to require the use of parts with a degree of wear appropriate to the age and technical condition of the vehicle.
- 11.6.** If it is not economically viable to restore the vehicle and/or the vehicle has been destroyed, a monetary indemnity will be paid out.
- 11.7.** If it is technically feasible to restore the vehicle, BTA is entitled to indemnify the costs of restoring the vehicle instead of a monetary indemnity.
- 11.8.** A vehicle is deemed to have been destroyed and/or restoring the vehicle is economically impractical if the cost of repairing it exceeds 70% of the vehicle's normal market value at the time of the insured event. BTA has the right to consider the vehicle destroyed and/or the restoration of the vehicle economically impractical if the cost of its restoration exceeds 50% of the vehicle's normal market value at the time of the insured event.
- 11.9.** If it is economically impractical to restore the vehicle, the market value of the vehicle at the time of the insured event is established, from which the deductible and the residual value of the vehicle are deducted if the beneficiary or the policyholder has chosen to keep the vehicle. If the residual value of the vehicle is transferred to BTA, the beneficiary or policyholder will also be reimbursed for the residual value of the vehicle. The remains of the vehicle will transfer to BTA at the moment of transfer of the remains. When the remains of the vehicle are transferred to BTA, the vehicle must be handed over in the same completeness as at the time the insurance contract was formalised, i.e. the tyres, alloy wheels, etc. are included in the price of the vehicle. The completeness of the vehicle indicated in the contract for sale is considered in the case of an event of new-value insurance.
- 11.10.** In the case of theft, robbery or destruction of accessories, the maximum amount insured is the amount stated in the policy.
- 11.11.** Value added tax is not included in the amount of damage to the extent that the person entitled to the indemnity is entitled to a refund or set-off, unless otherwise specified in the policy.
- 11.12.** In the case of an insured event, BTA will indemnify the costs of roadside assistance and transport of the vehicle to the nearest repair workshop, if this is necessary given the type of damage to the vehicle, economically justified and the policyholder has not selected the additional cover of BTA roadside assistance. Up to EUR 3,000 will be indemnified in the case of lorries, trailers, buses and vans (that weigh over 3.5 tons).
